

PARLIAMENTARY BUREAU

FUTURE BUSINESS PROGRAMME: POSSIBLE MOTIONS FOR MEMBERS' BUSINESS

1. Bureau members will be aware that under Rule 5.6.1(c) the Bureau has a duty to ensure that there is a period of time available for Members' Business at each meeting of the Parliament.
2. This paper is circulated with the Bureau papers each week and provides Bureau members with an updated list of motions lodged each week for Members Business debate. The paper will also provide Bureau members with a record of Members Business debates throughout the session, and the number and frequency of such debates that each party has had.
3. Bureau members may wish to note for information that the rota for Members' Business until Summer Recess is as follows—

Week beginning	Tuesday	Wednesday	Thursday
<i>24 April 2023</i>	SNP	SNP	GRN
<i>1 May 2023</i>	LD	CON	SNP
<i>8 May 2023</i>	SNP	SNP	CON
<i>15 May 2023</i>	LAB	SNP	SNP
<i>22 May 2023</i>	CON	SNP	LAB
<i>29 May 2023</i>	SNP	CON	SNP
<i>5 June 2023</i>	SNP	GRN	CON
<i>12 June 2023</i>	LAB	SNP	SNP
<i>19 June 2023</i>	CON	SNP	LAB
<i>26 June 2023</i>	SNP	CON	SNP
<i>Summer recess 2023</i>			

4. Motions submitted for Members' Business are shown below—

S6M-08756: Beatrice Wishart: The Future of Island Transport Infrastructure - That the Parliament acknowledges what it sees as the importance of connectivity in Scotland's rural and island areas; recognises Scotland's net zero targets, which were voted for by the Parliament; notes the reportedly high output of carbon emissions from ferries serving Scotland's islands; believes that reliable transport infrastructure is essential for local communities, providing social and cultural benefits, as well as underpinning local economies and tourism; notes the recommendation of the second Strategic Transport Projects Review (STPR2) to investigate potential fixed link connections, such as tunnels, along ferry routes on the Sound of Harris, the Sound of Barra, and between Mull and the Scottish mainland; understands that tunnels to connect communities on the Shetland Islands were deemed out of scope of STPR2 by Transport Scotland; acknowledges Shetland's grassroots tunnel action groups, made up of community members advocating the potential advantages of tunnels to connect the isles, and notes the support for opportunities to explore the benefits of short tunnels in Shetland.

S6M-08744: David Torrance: Work Set to Commence in Fife on Green Hydrogen Gas Network - That the Parliament welcomes the upcoming launch of the Levenmouth H100 Fife hydrogen network; understands that the project will start in May 2023, last for 15 months, and will be carried out in five phases; further understands that, by using clean offshore wind power and a dedicated green hydrogen production facility, the new gas network will deliver clean heat to around 300 households; acknowledges that the H100 project is a world-first green hydrogen gas network in the Buckhaven and Denbeath areas of Levenmouth, Fife; believes that the H100 project is leading the way in decarbonising home heating, and will be the first 100% hydrogen-to-homes zero carbon network anywhere in the world, demonstrating what it sees as the potential for the whole British gas network to deliver hydrogen gas; notes that the H100 project will be undertaken by gas distribution company, SGN, and is funded by the Scottish Government, Ofgem, SGN, and Northern Gas Networks, among others; commends SGN and its funders for the £32 million project and investing in Fife's green energy industry, and wishes the project all the very best in its implementation.

S6M-08721: Rona Mackay: Supporting Foster Carers in the Workplace with Fostering Friendly Employers Scheme - That the Parliament recognises Foster Care Fortnight, taking place from 15 to 28 May 2023; notes the view that more flexible and supportive workplaces are needed, to assist foster carers in employment, and, in turn, encourage more working people to foster; understands that research carried out by the Fostering Network found that 41% of foster carers combine their role with other employment in Scotland, while 60% of foster carers said that a fostering-friendly HR policy would help them to work while fostering; believes that workplaces becoming Fostering Friendly Employers (FFE) helps to provide foster carers with additional support and raises awareness of the extra demands placed on them to nurture what it sees as some of the most vulnerable people in society; understands that there are presently 4,623 children in foster care in Scotland; is grateful for the 3,716 fostering families in this country and commends their hard work and the unconditional love that they give to the children in their care; understands that 500 more fostering families are needed; further understands that being part of the Fostering Network's FFE scheme ensures that foster carers have the opportunity for paid leave for training, respite, meetings and other requirements to fulfil what it sees as their vital role; acknowledges that the theme during Foster Care Fortnight 2023 is Fostering Communities, and believes that being an FFE is a great example of how the wider fostering community can provide support, understanding and respect, which is entirely in line with The Promise.

S6M-08629: Stuart McMillan: Scotland's Liver Cancer Crisis - That the Parliament understands that 90% of liver disease is preventable, but that rising alcohol misuse, obesity and viral hepatitis are reportedly contributing to a liver disease and liver cancer crisis in Scotland; notes reports that liver disease burden is highest in deprived areas, such as those within the Greenock and Inverclyde constituency, which, it understands, had the highest rate of alcohol-specific deaths in 2017-2021, the majority of which were caused by alcohol-related liver disease; highlights what it sees as the importance of prevention and earlier detection of liver cancer, as one of the less survivable cancers, which, it understands, has seen the highest increase in mortality rates of all cancer types in Scotland over the last decade, and commends the work of the British Liver Trust and other charities in promoting the use of intelligent liver function tests and non-invasive liver scans in primary and community care to accelerate earlier detection of liver disease and liver cancer in order to save lives and reduce long-term pressures on the NHS.

S6M-08593: Katy Clark: Women Prisoners - That the Parliament notes reports that the women's prison, HMP Cornton Vale, is set to close and be replaced by HMP & YOI Stirling on the same site by the summer of 2023; further notes, with concern, reports that Scotland

has had one of the largest female prison populations in northern Europe since 2010; understands that nearly 40% of women charged are not charged for a violent offence, with 63% of women in the sentenced population indexed under Group 1 (Violence) in the recorded crime statistics; notes the findings of the International Review of Custodial Models for Women: Key Messages for Scotland by the Scottish Government social research department in 2015, which concluded that “countries with lower rates of female prison populations tend to have different sentencing practices, including a greater use of alternatives to custody and open prisons than is currently available in Scotland”; further notes the view that Scotland’s remand rates for women are too high, including in the West Scotland region; notes that the Scottish Prison Service confirmed in January 2023 that approximately 36% of women prisoners are on remand, higher than the percentage for prisoners who are men; further notes the view that the vulnerable nature of many women prisoners, offending patterns among women and the reported high percentage of women prisoners who are mothers and high percentage of women who have suffered brain injuries as a result of repeated domestic abuse, demonstrate that fewer women should be remanded into custody, and notes calls for the Scottish Government to reverse the real terms cuts to the justice budget, to fund and develop strategies to reduce the number of women on remand, and to consult with women’s groups to develop sustainable alternatives to custody that reflect the specific circumstances of women.

S6M-08590: Rhoda Grant: The Clearances Again - That the Parliament congratulates Donald Francis (DF) MacNeil, and Skipinnish, on securing a top ten iTunes download position for their song The Clearances Again; understands that this was achieved just 24 hours after the song’s release; further understands that this song is a protest song, which seeks to raise awareness of the Scottish Government’s proposed Highly Protected Marine Areas; believes that these proposals will ban inshore fishing and all marine activities and impact on the economy of the Highlands and Islands, and notes the view that the Scottish Government should heed the reported concerns and revisit this policy.

S6M-08561: David Torrance: Burntisland Marine and Environmental Services Company Pledges £100,000 Lifeline to Kirkcaldy Foodbank - That the Parliament commends Briggs Marine, in Burntisland, which, it understands, has pledged to donate £100,000 to Kirkcaldy Foodbank over the next four years; understands that the cash boost will help local families with the rising cost of living; further understands that Briggs Marine will donate £2,000 per month over four years, with an additional pre-Christmas payment ahead of the festive period, making a total commitment of £100,000 to help safeguard what it sees as this essential local service; commends the company for what it sees as its continued commitment to help charitable causes across the Kirkcaldy constituency, and wishes it all the best for the future.

S6M-08505: Fulton MacGregor: The Role of Swimming Pools - That the Parliament considers that swimming pools play an important role in Scottish society; believes that they enable the teaching of what it sees as a valuable life skill, the ability to swim, to people of all ages, in particular children; understands that swimming has been proven to have physical and mental health benefits; believes that such health benefits can often act as preventative health measures, which can reduce the strain on the NHS; notes that swimming pools often also act as community hubs, which, it considers, can be vital social assets for villages, towns and cities; understands that in non-coastal constituencies, such as Coatbridge and Chryston, swimming pools may be the only facility available where people can learn how to swim; notes the view that it is of critical importance that funding is provided in order to keep swimming pools open across the country, and further notes the calls for the Scottish Government to provide continued support to ensure that everyone can swim.

S6M-08481: Clare Adamson: Complex Regional Pain Syndrome Awareness Month -

That the Parliament notes what it sees as the importance of Complex Regional Pain Syndrome (CRPS) Awareness Month; understands that CRPS is a debilitating chronic disorder, mostly affecting the limbs, which is characterised by severe pain, pathological changes of bones, joints and skin, swelling, temperature and colour changes and motor dysfunction, which can cause a person to experience persistent, severe and debilitating pain; further understands that the condition may develop after an injury, surgery, stroke or heart attack, and that the pain can be out of proportion with the severity of the initial injury; notes that CRPS Awareness Month is held every November to raise awareness of the condition, and, as part of the initiative, that "Colour the World Orange Day" sees businesses, town halls and landmarks change their lights to orange in support of people living with CRPS; commends the volunteers and organisers at CRPS UK and Burning Nights CRPS Support for their efforts to raise awareness of what it sees as this poorly-understood condition; acknowledges that CRPS UK and Burning Nights are registered charities, with the shared goals of raising awareness of CRPS symptoms, providing invaluable support to people with the condition and advocating for more research development into it, and wishes all the organisers, volunteers, and the wider CRPS community, including those in the Motherwell and Wishaw constituency, every success in their efforts to increase public awareness of this debilitating condition and to support people affected by CRPS.

S6M-08397: Rachael Hamilton: Scottish Environmental Horticulture Growth Strategy -

That the Parliament welcomes the launch of the Horticultural Trades Association's *Scottish Environmental Horticulture Growth Strategy*; understands that the strategy aims to support the growth of a horticulture and landscaping industry that contributes around £2.8 billion towards the Scottish economy and over 64,000 jobs, including in the Scottish Borders; recognises the role that gardening and horticulture can play in contributing to Scotland's net zero targets, and notes that the strategy was presented during a recent meeting in the Scottish Parliament of the Cross-Party Group on Gardening and Horticulture.

S6M-08296: Brian Whittle: DEBRA, Living with Butterfly Skin - That the Parliament recognises the work of the national charity, DEBRA, and its continuing support for people with, or who are directly affected by, epidermolysis bullosa (EB), also known as "Butterfly Skin", including people affected in the South Scotland region; notes that DEBRA defines EB as a group of incredibly painful genetic skin conditions that cause the skin to blister and tear at the slightest touch; understands that people with EB have skin as fragile as a butterfly's wing, which is why it is known by that name; further understands that EB is the result of a faulty gene, which is passed through families and means that the skin cannot bind together; notes that this blistering and tearing not only happens externally, but can also affect internal organs, including the throat, and, in the worst cases, can be fatal; understands that there are currently around 5,000 people diagnosed with EB in the UK; congratulates DEBRA on its appeal, A Life Without Pain, for raising £65,000 at a charity dinner and sports quiz in Glasgow on 19 March 2023, for which many Scottish sporting celebrities gave up their time to provide their support; understands that DEBRA does not receive any statutory funding and relies on the income generated by its charity shops and fundraising activities in order to provide care and support for people with EB, as well as to fund pioneering research to find treatments and, ultimately, a cure for EB, and wishes DEBRA well with its work to raise awareness of this incredibly painful condition, and its drive to find better treatments and a cure.

S6M-08245: Rachael Hamilton: Supporting Mental Health in Rural Communities - That the Parliament recognises what it sees as the unique challenges being faced by farmers and

the wider agricultural industry as a result of vast input cost inflation caused by Russia's invasion of Ukraine, among other factors; commends farmers and crofters for the role that it considers they play at the heart of rural communities, producing high-quality sustainable food, supporting thousands of jobs, helping to tackle climate change and enhancing biodiversity, despite the pressures that they face; understands that these pressures contribute to concerns around the mental health of farmers and crofters in Scotland, including in the Scottish Borders; notes the work of the National Farmers' Union of Scotland in working with its members to protect the physical and mental wellbeing of all those working and living in farming communities, and highlighting the issue of mental health in farming, agriculture and countryside management more widely; recognises the work of the Countryside Alliance, the Mental Health Foundation Scotland, Scottish Land and Estates, the National Rural Mental Health Forum and the Poverty Alliance, among others, in also highlighting such issues and working towards finding solutions, and notes the calls encouraging those who are struggling with their mental health to access help and support from either their friends or family, or the many services available, including RSABI.

S6M-08250: Stephanie Callaghan: Celebrating Autism Acceptance - That the Parliament acknowledges both World Autism Acceptance Week, which runs from 27 March to 2 April 2023, and World Autism Month, which is celebrated throughout April, and their aim to raise awareness of autism, educate the public and make the world a friendly place for autistic people; notes that the National Autistic Society (NAS) theme for World Autism Acceptance Week 2023 is "colour", and welcomes the fundraising events, including an in-person colour walk and colour virtual challenge, to support services; understands that more than one in 100 people in Scotland are autistic, and believes that accepting, promoting and celebrating the skills, thoughts, ideas and talents of autistic people supports those individuals to reach their full potential, while bringing positive benefits for wider society; further understands that the report, Closing the Accountability Gap, published by NAS and Scottish Autism, found that there is still a significant gap in the provision and access of appropriate support for autistic people across services such as schools, employment and healthcare; commends NAS and Scottish Autism for what it considers their continuous campaigning to promote autistic people's rights and create a fairer and more accepting society, and in championing quality autism-specific services across Scotland, as well as their work to establish a Learning Disabilities, Autism and Neurodiversity Commissioner, and acknowledges the valuable work of local autism groups, such as HOPE for Autism and the Autism Resource Coordination Hub (ARCH) based in Lanarkshire, that work in partnership with autistic people.

Jeremy Balfour: S6M-08219: Ensuring that Lothian Late-diagnosed Deaf Children Get the Support That They Need - That the Parliament notes the belief that every child affected by the failings identified in the 2021 audit of NHS Lothian's paediatric audiology service, carried out by the British Academy of Audiology (BAA), must get the support that they need to thrive and to overcome any additional barriers that they face due to the failings identified in the report; understands that the audit did not include children seen later than 2018, which, it considers, means that there were further years until any failings were addressed by an action plan, and that there may be many more children who were not diagnosed in a timely manner; recognises that the key stages for fluent first language development are birth to three years old; understands that the BAA report found that the average age of identification of deafness was 4.5 years for children in the NHS Lothian area, which, it understands, is far longer than comparable figures in the rest of the UK; considers that the failings identified in NHS Lothian's paediatric audiology service will mean that many of the affected children were diagnosed after this critical period and are therefore likely to experience a significant adverse impact on their language and communications development, potentially leaving such children with more complex needs that may need to be addressed through co-ordinated

support from health, education, social work and other agencies; understands that the families of affected children have come together to form Families Failed by Lothian Audiology Action Group (FLAAG); further understands that the parents involved in FLAAG have identified a number of areas where their children are not getting the support that they need; understands that the families involved in FLAAG report that they have experienced a lack of access to BSL tutors, speech and language therapy and appropriately qualified professionals to support their deaf children and help remediate any damage caused by the failures of the audiology service, and notes the calls on all public and voluntary sector bodies that are supporting the late-diagnosed deaf children in the Lothians and beyond to work together to ensure that they always get the support that they need.

S6M-08210: Rhoda Grant: Scottish Youth Parliament Publishes its Young People's Right to Food Report - That the Parliament welcomes the publication of the Young People's Right to Food report by the Scottish Youth Parliament (SYP); understands that almost 850 responses were received to gather young people's experiences of accessing food; praises the SYP's work in conducting this extensive research as part of its campaign to find out about young people's experiences of accessing food, and using this to produce five clear recommendations to be put to decision-makers on potential changes that could improve young people's access to food; understands that the report highlights the many difficulties that families are facing in Scotland, and that young people want to be more included in the decision-making process regarding issues that affect them, particularly in relation to school meal provision and choices; further understands that only two fifths of respondents knew about the help and support that they could receive to access food in their local communities; notes the view that more work can and must be done to improve this; further notes that what it sees as this notable report harnesses the voices of young people in Scotland, including those in the Highlands and Islands region, in calling for their rights to be recognised by this Parliament, and notes the calls for the right to food to be upheld in Scots law and to create a fair, healthy and sustainable food system that is accessible to everyone.

Murdo Fraser: S6M-08199: Dewars Centre in Perth - That the Parliament notes the concerns raised by Scottish Curling that the potential closure of the Dewars Centre, in Perth, would be the death knell of a legacy of curling in Perthshire dating back decades; notes the belief that, if this proposal goes ahead, it would mean that the town and county with which curling is most closely associated has made a choice to de-prioritise the success of legends such as Rhona Howie, Eve Muirhead, David Murdoch and numerous others, all of whom have a strong connection between Perth and the Dewars Centre and their Olympic and World Championships successes; further notes that the Dewars Centre has a history of supporting grassroots curling, and the potential to enable critical growth and to play a central role in tackling isolation, reducing barriers to inequality, and ensuring that inclusion and a sense of community are at the heart of sport in Perth, and notes the calls for Live Active Leisure and Perth and Kinross Council to reach a decision that would enable the Dewars Centre to be retained.

Douglas Lumsden: S6M-08090: Condemnation of Aberdeen City Council Defunding Big Noise Torry - That the Parliament condemns the proposed budget decision by Aberdeen City Council to defund Big Noise Torry; notes that Big Noise Torry launched in July 2015 and was Sistema Scotland's third orchestra centre; understands that the charity works with children, from babies right up to S2 pupils, who live in Torry; notes that Big Noise uses the symphony orchestra as a community through which children can gain an invaluable range of life skills and experiences, such as developing confidence and teamwork, and considers that the loss of £738,000 of funding will have a serious impact on the outcomes of some of the most vulnerable pupils from deprived backgrounds.

Bob Doris: S6M-08071: Rare Disease Day 2023 - That the Parliament notes that Rare Disease Day 2023 takes place on 28 February and that the theme for the global day is Share Your Colours, which is a call to patients, governments and all stakeholders in positions of power to do all that they can to remove the stigma around patients with rare diseases, and to work collaboratively to raise awareness of the challenges that such patients face; welcomes that this year will see the return of an in-person rare disease parliamentary event in the Scottish Parliament on 15 March; recognises the significance of Rare Disease Day and annual parliamentary reception to people in Scotland with rare diseases; understands that over 320,000 people in Scotland are living with a rare condition; further understands that one in 17 people will be affected by a rare condition at some point in their lives and that the majority of rare conditions have no effective treatment; understands that, on average, it takes over four years to receive an accurate diagnosis of a rare condition, and that there are over 7,000 rare conditions, including rare cancers such as childhood cancers and other well-known conditions such as cystic fibrosis and Huntington's disease; welcomes the publication of the Rare Disease Action Plan for Scotland, which launched on 19 December 2022; notes the view that there is a need for ongoing engagement with people with rare diseases to ensure that the plan is successfully implemented, and further notes the belief that the plan should form the basis of ongoing engagement with people in Scotland with rare diseases in order to deliver for those with rare, genetic and undiagnosed conditions, as well as their families.

Pam Gosal: S6M-07992: International Women's Day 2023 - That the Parliament recognises the achievements of women around the world on International Women's Day on 8 March 2023; welcomes the 2023 theme of #EmbraceEquity, which seeks to open up the conversation about why equal opportunities are no longer enough, and that equity is the means through which to achieve equality; believes in a world free of bias, stereotypes and discrimination; notes the calls to raise awareness about discrimination, to celebrate women who forge change in society, and to build equity in all areas of society, including in healthcare, and further notes the belief that it is incumbent on all politicians to work together to pursue true equity for the benefit of women across the whole of society.

S6M-07928: Jackson Carlaw: East Renfrewshire Good Causes - That the Parliament acknowledges what it sees as the incredible and transformative work of charities in the Eastwood constituency and across Scotland; welcomes the ongoing contribution of East Renfrewshire Good Causes in providing what it considers outstanding support to vulnerable members of local communities; understands that, in the period since the charity was established and first started to offer much-needed support in August 2007 and up to September 2022, East Renfrewshire Good Causes has provided £1.6 million in goods and services and helped 5,400 individuals; acknowledges that examples of support that the charity has funded, either in full or in part, include wet floor shower adaptations for disabled pensioners, help with travel costs for cancer patients on low incomes to attend hospital for treatment, and play spaces and equipment for young people with additional support needs; considers that the set-up of the charity means that it can respond very quickly to emerging circumstances and is able to undertake essential tasks in a short timescale, such as assisting with practical home support improvements needed to allow older people to be discharged from hospital to free up beds for incoming patients; recognises that all referrals to the charity are made by frontline professionals, including teachers, housing officials and health and social care staff, from both the public and third sector; understands that the operations of East Renfrewshire Good Causes have expanded over the years and that the charity is also now active in Glasgow, South Lanarkshire, Renfrewshire and East Ayrshire; congratulates the founder and project coordinator of East Renfrewshire Good Causes, Russell MacMillan, for what it sees as the remarkable and selfless efforts that he has made

for more than 15 years in driving the Eastwood-based charity forward and ensuring that vital support has been provided to people in need, and considers that East Renfrewshire Good Causes has demonstrated a strong track record of delivery and established an operating model that has the potential to be replicated in all local authority areas across Scotland.

S6M-07924: Michelle Thomson: Taliban Suppression of Women and Girls in Afghanistan - That the Parliament condemns the actions of the Taliban in Afghanistan, which it believes have further restricted the freedoms and opportunities for Afghan women and girls; understands that the reported ban on women accessing university education in Afghanistan, enforced from December 2022, is in addition to the ban on girls attending secondary school; considers that this lost education will have a detrimental impact on skills and knowledge in Afghanistan, including its causal effect on professions such as education, healthcare and local government, as well as on economic growth; understands that United Nations officials have reportedly condemned these actions as a violation of Afghanistan's obligations under international law; further understands that, in July 2022, the UK Government confirmed its continued pressure on the Taliban to reverse its actions, and reiterated its support to provide emergency education funding through the United Nations' Education Cannot Wait fund and the Global Partnership for Education; believes that the actions of the Taliban continue to suppress women and girls in Afghanistan, and have led to what it sees as the desperate actions many women and children have taken by fleeing Taliban oppression and resettling in other countries, including the UK; considers that this has allowed those people to receive education, achieve their potential, and live a better quality of life; acknowledges the support that it considers the Scottish Government has provided to people resettling in Scotland due to conflict through the Afghan Citizens Resettlement Scheme and the New Scots Connect network, implemented by the Scottish Refugee Council; recognises the contributions of local groups across Scotland, including those in the Falkirk district, which operate to support refugees, and notes the calls for additional cross-government support to assist in both putting pressure on the Taliban to reverse its actions, and further supporting Afghan citizens, including women and children, who have resettled in Scotland to realise their potential.

S6M-07890: Emma Harper: Wear A Hat Day 2023 - That the Parliament recognises what it sees as the importance of Wear A Hat Day, taking place on 31 March 2023, in raising awareness of brain tumours; understands that brain tumours are the biggest killer of children and adults under 40 with cancer in Scotland, reducing life expectancy by 20 years on average; believes that this is the highest life expectancy reduction of any cancer, but that the treatment and understanding of brain tumours are 20 years behind those relating to more common cancers; notes that brain tumours often cause side effects that have a severe impact on a person's quality of life; understands that there are over 130 different types of brain tumour, and that some symptoms of brain tumours can mimic other equally serious conditions, which often renders early diagnosis and treatment more difficult in many cases; further understands that brain tumour charities, such as the Brain Tumour Charity, are working hard to fund pioneering research, raise awareness of the signs and symptoms of brain tumours, and provide support to people affected by brain tumours; commends the success of national campaigns, which it considers have contributed to a reduction in the average diagnosis time for childhood brain tumours, from 9.1 to 6.5 weeks, since 2011; believes that national campaigns are a basis on which to develop further awareness; notes the significant efforts of Dumfries and Galloway Medical Physics Technician, Alan Johnstone, in both raising awareness of brain tumours and funding for research and development into the causes of brain tumours, their treatment and, ultimately, a cure; understands that Alan's late wife, Annika Johnstone, was diagnosed with a glioblastoma brain tumour and sadly died in 2019, despite being a very fit and active 33-year-old, and

further understands that, despite losing Anneka, Alan has raised more than £55,000 for the Brain Tumour Charity by walking the 214-mile Southern Upland Way, videos of which were posted to Alan's TikTok account, which has attracted a huge following.

S6M-07793: Finlay Carson: Welcoming the Contribution of Rural Estates to Scotland's Wellbeing Economy -

That the Parliament welcomes the publication of the report, The Contribution of Rural Estates to Scotland's Wellbeing Economy, by Scottish Land and Estates; believes that this report, for which the research was carried out by BiGGAR Economics Ltd and Scottish Land and Estates, is an innovative example of a whole sector measuring its outputs against Scotland's National Performance Framework's National Outcomes rather than just through traditional economic metrics; considers that the report describes and quantifies how rural estates drive local economic development through agriculture, forestry, tourism, sporting, recreation and renewable energy generation, act as stewards of the natural environment, protect and enhance biodiversity, support the transition to net zero, provide homes and create sustainable new communities, provide a gateway to nature, and function as anchors of communities and support community-led projects; further considers that the report also identifies areas in which there is scope for estates to increase their contributions across the National Outcomes, and provides an improvement framework to complement the research; recognises Scotland's rural estates as, it considers, key delivery partners of the Scottish Government across a wide range of policy areas, including improving outcomes for people, jobs, and nature across the country, including in the Galloway and West Dumfries constituency, and commends the sector for what it sees as its commitment to this innovative work.

S6M-07769: Evelyn Tweed: National Lyme Disease Awareness Month -

That the Parliament acknowledges that May 2023 is National Lyme Disease Awareness Month; notes that Lyme disease is a bacterial infection spread to humans by infected ticks, which are tiny spider-like creatures found in woodland and moorland areas that feed on the blood of birds and mammals, including humans; understands that many people with early symptoms of Lyme disease develop a circular rash around the tick bite three to 30 days after being bitten, often described as looking like a bull's eye on a dart board, whilst some people may develop several rashes in different parts of their body, and around one in three people will not develop a rash; further understands that some people with Lyme disease also have flu-like symptoms, including tiredness, muscle and joint pain, headaches, a high temperature, chills and neck stiffness; notes the calls encouraging anyone who has been bitten by a tick and develops a rash or flu-like symptoms to speak to their GP and tell them that they have been bitten by a tick; further notes, however, that diagnosing Lyme disease is often difficult as many of the symptoms are similar to other conditions; acknowledges that NHS Scotland advises that Lyme disease is treatable, however, that without treatment, more serious and longer-term symptoms may develop, including pain and swelling in joints, nerve problems, memory problems, difficulty concentrating and heart problems; understands that there is currently no vaccine available and that the best way to prevent Lyme disease is to adopt simple measures when in the countryside or near wildlife, including tucking trousers into socks and wearing insect repellent, and notes the calls encouraging anybody who is concerned that they have contracted Lyme disease to contact their GP and for everyone to take precautions when in the countryside.

S6M-07627: Stephen Kerr: Whistleblowing Awareness Week 2023: That the Parliament is aware that Whistleblowing Awareness Week occurs between 20 and 24 March 2023; considers that whistleblowing is crucial to a free and open society; understands that Whistleblowing Awareness Week is an opportunity to celebrate people who have courageously spoken up about various workplace issues and organisations that have

promoted whistleblowing within their organisation, and notes the view that Whistleblowing Awareness Week is an opportunity to acknowledge that existing whistleblowing legislation requires root and branch reform.

S6M-07622: David Torrance: Alex James Colquhoun Elected as Vice President of the European Showman's Union - That the Parliament congratulates Alex James Colquhoun after being elected as the Vice President of the European Showman's Union; understands that Alex James was elected to the position of vice president after what it sees as his tireless efforts in assisting and working to improve the lives of showpeople in Scotland with fundamental issues, most recently through the provision of funding during the COVID-19 pandemic; further understands that Alex James is also the current chairman of the Scottish Section of The Showman's Guild and that he brings a wealth of knowledge to his new role; believes that Alex James has been instrumental in the return, since the pandemic, of Burntisland's Summer Fair and Kirkcaldy's Links Market, which was established in 1304 and is Europe's longest street fair as well as the oldest in Scotland; notes that Alex James is a member of the Cross-Party Group in the Scottish Parliament on the Scottish Showmen's Guild, which highlights what it sees as the importance of Scottish showmen as a contributing group to communities across Scotland; commends Alex James for his dedication to showpeople, and wishes him all the best for the future.

S6M-06729: Colin Smyth: Justice for Fornethy House Survivors - That the Parliament recognises what it considers as the inspirational women who have bravely come forward to highlight the plight of the reported hundreds of survivors of physical, mental and sexual abuse at Fornethy House Residential School, in Angus, when they attended to convalesce or for short breaks between 1960 and the 1990s; notes reports that over 200 women have revealed the appalling abuse that they suffered at Fornethy House when they were young girls; commends these women for what it sees as their determined and admirable campaign for justice; recognises the reported challenges that survivors of Fornethy House have experienced in qualifying for Scotland's Redress Scheme due to the eligibility criteria excluding those abused in short-term respite care; notes the reported difficulties that the survivors have had in obtaining personal records that were held by the owners of Fornethy House at the time, which were Glasgow Corporation and Strathclyde Regional Council; further notes the ongoing Police Scotland investigation, but regrets that, to date, none of the alleged perpetrators of the abuse have been brought to justice, and notes the view that these women deserve both justice and recognition for the appalling abuse that they suffered at Fornethy House Residential School.

Record of Members' Business taken by the Parliament from 8 June 2021

Date	MSP	Party	Subject
8 June 2021	Jim Fairlie	SNP	Impact on Scottish Agriculture of Tariff-free Trade Deals
9 June 2021	Neil Gray	SNP	Social Justice and Fairness Commission Report
15 June 2021	Douglas Ross	CON	The Campaign to Restore the Consultant-led Maternity Unit at Dr Gray's, Elgin
16 June 2021	Monica Lennon	LAB	Historical Forced Adoption
22 June 2021	Bob Doris	SNP	MND Scotland (40 th Anniversary)

23 June 2021	Alasdair Allan	SNP	National Gaelic Language Plan
